Profile Summary

Aspiring AI Engineer with a strong foundation in machine learning and artificial intelligence.

PROJECTS

AI-ENHANCED DRIVELITE – INTELLIGENT VEHICLE RENTAL MANAGEMENT SYSTEM

Spring Boot, React.js, MySQL, Spring Security, JWT Authentication, REST APIs, Python, Scikit-learn

- Developed a full-stack vehicle rental platform with **JWT-based authentication**, **role-based access control**, and secure booking management.
- Built **RESTful APIs** and an **admin dashboard** for efficient vehicle, user, and booking management using Spring Boot, React.js, and MySQL.
- Integrated an **AI-powered vehicle recommendation system** using Python and Scikit-learn to deliver personalized vehicle suggestions based on user preferences and availability.

AI-POWERED SMART HEALTHCARE DIAGNOSIS ASSISTANT

Python, Scikit-learn, TensorFlow, Flask, Spring Boot, React.js, MySQL

- Developed an AI-powered healthcare diagnosis system to predict diseases from patient symptoms using Machine Learning and Deep Learning models.
- Built a Flask-based AI microservice integrated with Spring Boot REST APIs and a React.js frontend for real-time disease prediction and personalized health recommendations.
- Implemented JWT-based authentication, appointment scheduling, prediction history, and an analytics dashboard to deliver a secure and scalable healthcare solution.

EDUCATION

VIT-AP University — **CGPA: 9.40**
BTech IN CSE (CORE) — 2023 – 2027 (Expected)

Board of Intermediate Education, AP — 2021 – 2023
Percentage: 98.5%

Board of Secondary Education, Andhra Pradesh — 2020 – 2021
Percentage: 98.67%

SKILLS

Programming Languages:

- Java, Python, C, C++
- HTML, CSS, JavaScript
- mySQL
-

Technology:

• AI & Machine Learning
• Natural Language Processing • AWS
• Data Structures and Algorithms
• Database Management Systems

CERTIFICATIONS

IBM:

Advanced GenAI

• Completed advanced training in **Generative AI**, Large Language Models (LLMs), and enterprise AI applications.
• Gained hands-on experience with **DataRobort**, prompt engineering, Retrieval-Augmented Generation (RAG), and AI model evaluation.
• Built AI-powered solutions using **Python**, **Hugging Face**, **LangChain**, and API-based integrations while exploring responsible AI practices.

ORGANIZATIONS

Technical Member – GeeksforGeeks Student Chapter

• Participated in coding contests and technical workshops.

INTERESTS

- Tech Enthusiast
- Exploring emerging trends in AI
